Introduction

[illegible]

Problem Statement

[illegible]

Literature Background

[illegible]

Proposed Solution

[illegible]

Objectives

[illegible]

System Methodology

The workflow includes file upload, text extraction, AI analysis, summarization, translation, and text-to-speech generation.The workflow includes file upload, text extraction, AI analysis, summarization, translation, and text-to-speech generation.The workflow includes file upload, text extraction, AI analysis, summarization, translation, and text-to-speech generation.The workflow includes file upload, text extraction, AI analysis, summarization, translation, and text-to-speech generation.The workflow includes file upload, text extraction, AI analysis, summarization, translation, and text-to-speech generation.

upload, text extraction, AI analysis, summarization, translation, and text-to-speech generation. The workflow includes file upload, text extraction, AI analysis, summarization, translation, and text-to-speech generation.

Technology Stack

[Python](#), [OpenAI GPT API](#), [NLP techniques](#), [PyPDF2/pdfplumber](#), [HTML/CSS/JavaScript](#),
[Translation APIs](#), [gTTS](#), and [Replit IDE](#). Python, OpenAI GPT API, NLP techniques,
PyPDF2/pdfplumber, HTML/CSS/JavaScript, Translation APIs, gTTS, and Replit IDE. Python,
OpenAI GPT API, NLP techniques, PyPDF2/pdfplumber, HTML/CSS/JavaScript, Translation APIs,
gTTS, and Replit IDE. Python, OpenAI GPT API, NLP techniques, PyPDF2/pdfplumber,
HTML/CSS/JavaScript, Translation APIs, gTTS, and Replit IDE. Python, OpenAI GPT API, NLP
techniques, PyPDF2/pdfplumber, HTML/CSS/JavaScript, Translation APIs, gTTS, and Replit
IDE. Python, OpenAI GPT API, NLP techniques, PyPDF2/pdfplumber, HTML/CSS/JavaScript,
Translation APIs, gTTS, and Replit IDE. Python, OpenAI GPT API, NLP techniques,
PyPDF2/pdfplumber, HTML/CSS/JavaScript, Translation APIs, gTTS, and Replit IDE. Python,
OpenAI GPT API, NLP techniques, PyPDF2/pdfplumber, HTML/CSS/JavaScript, Translation APIs,
gTTS, and Replit IDE.

System Features

[illegible]

Advantages & Impact

[illegible]

Future Enhancements

Mobile application support, multilingual expansion, legal Q&A; chatbot, clause extraction, and cloud integration.Mobile application support, multilingual expansion, legal Q&A; chatbot, clause
extraction, and cloud integration.Mobile application support, multilingual expansion, legal Q&A;
chatbot, clause extraction, and cloud integration.Mobile application support, multilingual expansion,
legal Q&A; chatbot, clause extraction, and cloud integration.Mobile application support, multilingual
expansion, legal Q&A; chatbot, clause extraction, and cloud integration.Mobile application support,
multilingual expansion, legal Q&A; chatbot, clause extraction, and cloud integration.Mobile
application support, multilingual expansion, legal O&A; chatbot, clause extraction, and cloud

integration. Mobile application support, multilingual expansion, legal Q&A; chatbot, clause extraction, and cloud integration.

Conclusion

The project demonstrates how Artificial Intelligence can make legal knowledge accessible through simplified summaries, translation, and audio support.The project demonstrates how Artificial Intelligence can make legal knowledge accessible through simplified summaries, translation, and audio support.The project demonstrates how Artificial Intelligence can make legal knowledge accessible through simplified summaries, translation, and audio support.The project demonstrates how Artificial Intelligence can make legal knowledge accessible through simplified summaries, translation, and audio support.The project demonstrates how Artificial Intelligence can make legal knowledge accessible through simplified summaries, translation, and audio support.
